Ancestral Boma

The Ancestral Boma is the authentic heart of the camp, which takes you on beautifully curated journey into the history of the area. This sacred space honours the region's past generations and the former custodians of the wetland paradise. Whilst the safari experience involves exploring the delta's wildlife and its innate splendour, the rich heritage of the land's former stewards is often overlooked. The Ancestral Boma was designed to elicit a deep respect for and appreciation of the tribes and peoples that graced the local area. These forebearers now guide us in rediscovering a simpler era when hunting, gathering, farming, and existing in harmony with nature formed a rhythmic and connected way of life.
